

ArcPL opx-liq: ML forest vs Putirka 2008 (restored nb04b headline)

Top: ML predictions on all n=197 ArcPL opx-bearing experiments (100% coverage). Middle: ML predictions on the Option B subset (n=166): rows passing Putirka 2008 Kd(Fe-Mg)+0.06 equilibrium AND eq28a/29a convergence. Bottom: Putirka predictions on the same Option B subset. Putirka-excluded rows (Kd rejection or non-convergence) total 15.7% of the full set.
